Payments Orchestration
SWIFT Payment

SWIFT Payment Datasheet

The SWIFT Payments capabilities within the Enterprise Financial Hub provide a robust infrastructure for managing global transactions efficiently and securely. By leveraging the features outlined above, businesses can expect to see substantial benefits, quantified by significant reductions in costs and improvements in operational efficiency. The integration of these capabilities within the financial hub ensures that organizations are well-equipped to handle the complexities of international payments in a streamlined and cost-effective manner.

Global Payment Initiation

Reduces the costs associated with initiating global payments by up to 20% due to the streamlined process and avoidance of intermediary bank fees.

Straight-Through Processing (STP)

Improves payment processing efficiency by as much as 50% or more, minimizing manual errors and delays while maximizing the throughput of payment transactions.

Secure Payment Transactions

Lowens the risk of payment fraud and security breaches by up to 60%, protecting financial assets and sensitive information.

Tracking and Transparency

Enhances operational transparency by around 40%, allowing businesses to track their transactions precisely, leading to better cash flow management and customer satisfaction.

Fee and Charge Predictability

Results in a 30% estimated reduction in unexpected fees related to international payments, ensuring cost-effective transactions and accurate financial forecasting.

Message Archiving and Compliance Reporting

Reduces compliance and reporting efforts by up to 25%, ensuring adherence to international standards and simplifying audit processes.

FX Rate Optimization

Achieves around 15% estimated improvement in FX rate management on international payments, leading to better currency exchange deals and cost savings.

Automated Reconciliation

Improves reconciliation accuracy by about 35%, significantly reducing the time and labor involved in matching and verifying global transactions.
